## Gravity Feed Slicers with automatic Transmission

Robust piezo switch

Easy switch from automatic to manual operation

### Automatic Gravity Feed Slicers in compact housing – AUTOMATIC300-Compact-230

- Compact housing
  - Optimal processing due to steeply slope of the carriage and automatic transmission of carriage
  - Automatic operation of the carriage up to 35 movements per minute, also reversible in manual operation
  - Shift lever for easy switch from automatic to manual operation
  - Solid housing and carriage in anodized aluminum
  - Powerful motor
  - Multifunctional blade of the latest generation: 2-level profile with hard-chrome plated surface finish for improved non-stick effect (Teflon knife for cutting cheese no longer required)
  - Continuously adjustable slice thickness: 0 – 15 mm
  - 3-way adjustable end piece holder for various cutting materials
  - Poly-V belt drive for smooth cutting and quiet operation
  - Removable carriage for effortless cleaning
  - Includes guide rail for product fixation
  - Suitable for intended continuous operation
  - Delivery includes a sharpening tool
- Option**
- Blade removal device
  - Cut resistant glove

#### Technical Specifications

|                    |                          |
|--------------------|--------------------------|
| Model              | Automatic300-Compact-230 |
| Art. No.           | 4079                     |
| Blade Ø            | 300 mm                   |
| Cutting area       | 220 x 145 mm             |
| Power rating       | 0.37 kW                  |
| Dimensions (WxDxH) | 640 x 600 x 490 mm       |
| Dead weight        | 35 kg                    |
| Type of current    | 230 V                    |
