

PRODUCT INFORMATION

Electronic Industrial Scale

Counting System – ZS1-VSL-60

- Counting system consisting of a counting scale as reference scale with 3 kg maximum load and a platform scale as quantity scale with 60 kg maximum load
- Weighing, Taring, Counting, Summing
- 10-key pad for entering reference weight, reference quantity, and tare
- User guidance and reference weight optimization
- Input of target price count or target weight
- Memory slots for 99 items with reference weight, additional text, and tare

Reference scale:

- Robust industrial design in stable plastic housing
- Three LCD displays for weight indication, reference weight, and total piece count, digit height 20 mm
- Weighing surface made of high-quality and stainless steel
- Automatic shut-off in battery operation
- Mains and battery operation, battery life up to 80 hours (including battery)
- Second scale connection with quantity scale VSL for setting up a high-resolution counting system

Quantity scale:

- Weighing surface made of high-quality stainless steel
- Underframe lacquered steel
- Aluminum load cell IP65
- Overload protection
- High-adjustable feet

Technical Specifications

Model	Art. No.	Weighing platform Reference scale / Quantity scale	Capacity Reference scale / Quantity scale	Graduation Reference scale / Quantity scale
ZS1-VSL-60	2810-01	295 x 220 mm 500 x 400 x 150 mm	3 kg 60 kg	0,1 g 20 g
